A48FTC331-LP

Swedish White

Reference edition 2026-09-18 | Catalogue details and ordering checklist

Swedish White (A48FTC331-LP) is a 400 × 800 mm ceramic tile in Full-body Polished Stone. The catalogue lists living rooms, bedrooms and hotel lobbies. Its compact rectangle is an alternative to the larger formats elsewhere in the range.

Collection	Full-body Polished Stone
Nominal format	400 × 800 mm
Nominal face area	0.32 m² per tile
Listed applications	Living rooms, Bedrooms, Hotel lobbies

Face area is calculated from nominal dimensions. It excludes joints, cuts and waste and is not a carton quantity.

Use the current model documents to confirm the body and surface treatment. The collection name alone does not establish the specification for a wall or floor.

Technical specification: confirm for your order

Thickness and dimensional tolerances; Body classification and water absorption; Exact finish and relevant wear or slip test results; Test method, specimen identification and report date.

Packaging and delivery: confirm for your order

Pieces and square metres per carton; Net and gross carton weight; Cartons and weight per pallet; Packing arrangement and loading limits for the shipment.
